SUMMARY

Passionate and driven computer science enthusiast with a strong academic background in Computer Science. Active contributor to open-source projects and demonstrated proficiency in various programming languages and frameworks. Seeking opportunities to join a dynamic organization that values innovation, collaboration, and technological excellence.

COMPUTER SKILLS

Software Applications, *MigWiz, Profwiz, Microsoft Office, GIMP, Pycharm, Visual Studio, VS Code, MySQL, GithubDesktop, Git Shell, DBeaver, Eclipse, Android Studio, RStudio, Libre Office, Processing*

Web Applications, *Footprints, Bootp, Microsoft LAPS, Tableau, Firebase, phpMyAdmin, Kaggle, Google Cloud, GitHub, Google Admob, Jupyter Notebook, Jupyter Labs,*

Programming, *Python, Dart, Flutter, R, HTML, CSS, PHP, Vb.NET, JAVA, SQL, C, C++, Shell Script*

Operating System,
Windows 7, 10 and 11, Mac-OS, Ubuntu, Manjaro(KDE and Plasma), Parrot OS, Kali, and Unix.

PROJECTS

Maze Generation 🔗 ,
Nov 2024 - Present: With the help of DFS algorithm it generates maze of any size on CPU as well as GPU.

Kryptor 🔗 , *Sep 2022 - Oct 2022 : Developed a python package with the capability to encrypt and decrypt data using various algorithms.*

Kongknitec 🔗 , *Aug 2022 - Sep 2023 : Led a team of 5 in creating a facial recognition based attendance model using python as frontend and firebase as backend. Libraries like numpy, dlib were used.*

OCR with Python 🔗 , *Apr 2022 - Oct 2022 : Using libraries like tesseract and numpy to develop an Optical Character Recognition model in python.*

Co-op-Projects 🔗 , *Sep 2024 - Aug 2025 : It features automated deployment checklists, internal deployment alerts and procedures, and utilities such as offline text formatting tools.*

GENERAL SKILLS

- Demonstrated teamwork and leadership skills by managing teams on the "Kongknitec" project and Hackathon, successfully completing tasks within tight deadlines.
- Developed strong communication and customer service skills by presenting project details, troubleshooting software, and assisting faculty and staff with technical needs.
- Showcased multitasking and time management abilities by leading projects, maintaining asset tracking, and ensuring smooth operation of computer labs.

EDUCATION

Bachelor of Science - Computer Science 2024 – present | Regina, SK, Canada
University of Regina 🔗

Diploma - Computer Engineering 2020 – 2023 | Ahmedabad, Gujarat, India
Government Polytechnic Ahmedabad 🔗

Courses
•Google IT Automation with Python 🔗 , Coursera-Google
•Excel Basics for Data Analysis 🔗 , Coursera-IBM
•Python for Data Science, AI & Development 🔗 , Coursera-IBM

PROFESSIONAL EXPERIENCE

MATH 101 Marker, *University of Regina* Sep 2026 – Present | Regina, Canada
- Invigilating quizzes, midterms and final examinations.
- Marking those quizzes and midterm examinations.

Tech Asst - Advancing Technologies, *SaskTel* Sep 2026 – Present | Regina, Canada
- Automated CircuitVision software migration using Python, improving process efficiency and reducing manual intervention.
- Utilized Docker, NetBox, APIs, and SQL for system integration, data management, and workflow automation.
- Applied knowledge of telecom networking concepts (CWDM, DWDM, fiber optics) and gained exposure to GitOps practices through continuous learning.

Tech Asst - Advancing Technologies, *SaskTel* May 2026 – Present | Regina, SK
- Automated CircuitVision software migration using Python, improving process efficiency and reducing manual intervention.
- Utilized Docker, NetBox, APIs, and SQL for system integration, data management, and workflow automation.
- Applied knowledge of telecom networking concepts (CWDM, DWDM, fiber optics) and gained exposure to GitOps practices through continuous learning.

Student Library Assistant, *Dr. John Archer Library* Jan 2026 – Present | Regina, Canada
- Shifted and shelved library materials, processed loans and returns, and maintained organized collections
- Initiated searches, recalls, and hold requests while updating and managing user account information
- Provided excellent customer service by answering phone calls, giving directions, assisting users, and sharing general library information

IT Student Clerk, *University of Regina* Sep 2025 – Dec 2025 | Regina, Canada
- Support the Evergreen Deployment team by setting up, configuring, and delivering new computer systems.
- Assist with data transfer, software setup, and equipment salvage to ensure smooth system rollouts.
- Contribute to a collaborative work environment focused on efficiency, safety, and customer service.

Deployment Services, *University of Regina* Sep 2024 – Aug 2025 | Regina, Canada
- Installed, configured, and imaged new systems, transferred data, decommissioned hardware for recycling, and maintained the asset tracking database.
- Re-imaged computers, performed repairs, ensured smooth operation of labs, and troubleshooted software in teaching environments.
- Provided excellent customer service, assisted faculty and staff, and adapted to irregular or extended work hours as needed.

Team Leader, *Knocks* Aug 2024 – Dec 2024 | Regina, Canada
- Led and trained a team of 2-4 in conducting door-to-door surveys, ensuring accurate data collection and effective communication to represent diverse client goals.
- Coordinated schedules, adapted to dynamic conditions, and utilized digital tools to track progress and report outcomes.
- Fostered team growth through coaching, mentoring, and team-building activities.
